Section II – POLICY ON STUDENT CONDUCT

Statement of Student Rights and Responsibilities

As citizens, John Abbott College students enjoy the same basic rights as do all citizens and are bound by the same responsibilities to respect the rights of others. In joining the John Abbott community, students are expected to conduct themselves in accordance with College standards designed to perpetuate its educational mission and purpose.

Free inquiry, expression and assembly are guaranteed to all students. Students have the right to freely pursue their respective educational goals and functions. It is the College's responsibility to assure, as far as possible, the resources and atmosphere which these require. Students are also free to organize their personal lives and behaviour, subject only to the law, established College policies and rules, and the stipulations of the Student Code of Conduct.

Students also have a role to play in the resolution of their conflicts by engaging in peaceful and respectful conflict resolution practices, notably by addressing situations directly with the persons involved if

possible and having informal discussions with them; resources are available at the College to assist students in this regard if required, including mediation services. Conflict resolution is a lifelong skill and the College encourages students to practice this skill in all aspects of their lives. Turning to social media as a manner to resolve conflicts is not an appropriate venue when available services and resources have not been thoroughly sought (see Schedule A for available services and resources).

Willful or irresponsible damage, loss of College, student or staff property, and all disruptive, offensive or irresponsible behaviour by students, shall be considered detrimental to or acting against the rights of the College community. All students involved in such acts shall be dealt with according to the provisions of this policy.

Breaches or violations of the Student Code of Conduct which are also breaches of the law may be dealt with in the courts. It is understood that any individual who is victim of a crime on College premises or at College functions may, independently, file a police report. The Director General, on behalf of the College, also reserves the right to lay charges or refer the matter to the proper law enforcement agency. However, if the College is involved or affected internally, these breaches or violations of the Student Code of Conduct will be dealt with by the Director of Student Services or the Director of Continuing Education in accordance with the provisions of this policy regardless of whether or not individuals are charged in the courts.

Student Code of Conduct

The Student Code of Conduct is designed to ensure that all members of the John Abbott community may exercise their rights. It is also intended to provide students, through fulfilling their responsibilities, with the opportunity to become good citizens. Consistent with these goals, reasonable efforts will be made to foster the personal and social development of those students who are held accountable for violations of College regulations.

Students are subject to disciplinary action in all cases involving breaches of College policies, rules or general misconduct, any violation of federal, provincial or municipal law on College premises or at College functions, including specifically, but not limited to, the following:

- after a period of five (5) years or immediately following the student's graduation, whichever comes first, destroy all documents contained in the confidential file.

In the case of a hearing, the Director of Student Services/Director of Continuing Education, as applicable, may request the assistance of one or more College Directors or Managers to assist them in the hearing and to form part of the panel hearing and rendering a decision. In exceptional circumstances, the Director of Student Services/Director of Continuing Education, as applicable, may request that the Director General appoint a third party to the College or outside committee to adjudicate a particular case; these special appointees shall act within the spirit of this policy, shall have the same mandate, jurisdiction and powers as the Director of Student Services and the Director of Continuing Education, and shall follow the general procedures established in this policy.

All proceedings under this policy shall be kept confidential. The Director General will be the sole authority in the matter of information release to the public and/or the press.

In the case where individuals against whom complaints have been laid refuse to appear and/or refuse to abide by the decision of the Director of Student Services/Director of Continuing Education, the Director General shall take immediate action.

In the case of a recommendation by the Director of Student Services/Director of Continuing Education to have a student or group of students suspended or expelled from the College, the Director General shall make a determination within the spirit of this policy and advise the student(s) in writing. When a student is suspended or expelled from the College, the Director of Student Services/Director of Continuing Education will, if appropriate, refer the student/parents to the proper social agencies in order for them to receive assistance in dealing with unresolved issues or continuing problems.

Interim Suspension

In certain circumstances, the Director of Student Services/Director of Continuing Education may impose an immediate interim suspension prior to a hearing. The hearing to decide the case shall be scheduled as soon as possible but it will not be later than thirty (30) calendar days after the notice of interim suspension.

An interim suspension may be imposed only if one or more of the following conditions apply:

- to ensure the safety and well-being of College community members or to preserve College, staff or student property;
- to ensure the student's own physical or emotional safety and well-being;
- to prevent disruption or interference with normal College operations in the case of a student who poses a definite threat.

During the interim suspension, the student shall be denied access to all College functions, on or off campus. The student is also denied access to the campus itself, except to attend their disciplinary hearing as determined by the Director of Student Services/Director of Continuing Education.

Suspension/Expulsion in Exceptional Circumstances

In exceptional circumstances where the General Procedures incorporated in this policy cannot or should not be implemented (e.g., when a student refuses to appear at a hearing, when a student is institutionalized, when a student is incarcerated, etc.) and where a serious offence against the Student Code of Conduct has occurred, the Director General, acting in the best interest of the College community, shall not be bound by the General Procedures outlined in this policy and shall have the power to impose forthwith an appropriate sanction (e.g., suspension, expulsion). The Director General shall decide within the spirit of this policy.
